TO SECURE FARM LABOR.

There is a popular song which very pointedly asks how ex-soldier boys are going to be kept on the farm after they've seen Paris. Nobody knows the answer, as the Chicago Tribune admits, after serving its turn in the strenuous Western effort to check the cityward drift of young men from the rural districts. So the Tribune proposes "a movement, not of the farm workers who are leaving, but of city workers who have long cherished a hope that they might get out of the turmoil and dirt of the city into a life in the open." The idea is that the war which took so many young men permanently from the farms also developed in city boys the love of an active life out of doors, and this, if stimulated in the right way, may plant many of them on the farms. The Tribune promises work along this line in the schools through the addition of agricultural training to the manual and technical training now available in the public schools and night courses.

In this way "the great purpose of providing a source of farm labor and development undoubtedly would be stimulated," says the Tribune, adding: "It is a matter worthy of the consideration of the farmers of the nation who are complaining bitterly of the loss of their workers to the city. It is equally worthy of the attention of educators, whose basic purpose after all is to equip our citizens for the struggle of life in whatever field." This proposition is commendable, but its results could be seen only in the future. More immediate relief from the present distressful situation could be secured by repealing the literacy test and thus permitting the immigration of unlettered working people from European agricultural districts.

The Betts bill, which Governor Smith of New York has signed, makes it a misdemeanor to give a newspaper for publication "a false and untrue statement of a fact" concerning a person or corporation. The slipshod language quoted calls to mind a joint debate of two politicians, one of whom, being accused indignantly cried out: "I deny the fact!" Whereupon the other cuttingly remarked that the practice of "denying facts" was precisely what he had objected to.

Instances of American wastefulness are never lacking. According to the Louisville Courier-Journal, "hundreds of thousands of cords of driftwood, excellent fuel, deposited upon the lowlands along the Ohio are being burned this spring to make way for breaking the land for corn." Of course the cost of collecting and marketing would be considerable, but such a complete loss in these times of expensive fuel is lamentable.

It is rumored that the Swiss government will request the ex-kings now sojourning in that country to move on because they are occupying accommodations that are wanted for better paying guests. Presumably, the better paying guests are Americans, but many of these would be willing to pay better still if the

Swiss would keep the fallen royalties and occasionally put them on exhibition.

British Coal Abundant.

For her size, Great Britain has more and better coal than any other country in the world. The coal seams, lying one below another to an unknown depth, not infrequently cropping out at the surface, are proof that tropical conditions once prevailed in the latitude of these islands. The district which is now Great Britain was connected in primeval times with the continent, and the coal of England doubtless runs under the channel and the southern part of the North sea, continuing in the coal fields of northern France, Belgium and Flanders.

Plant That Coughs.

Botanists have records of carnivorous plants which eat even mice; there are laughing and weeping flowers; and now, according to the Journal de la Sante, there is in the tropics a "coughing plant." Its fruit is like the common bean. It is easily aroused to anger, and what is more strange, has a horror of all kinds of dust. As soon as a few grains fall on the leaves the stomates or air cells, which are the breathing organs, fill with gas, puff out and throw off the dust with slight explosions like the cough of a child.

FINE CITY TWICE DESTROYED

Antigua, Spanish Capital of Central America, the Victim of Flood, Fire and Earthquake.

Antigua the glittering Spanish capital of all Central America, arose high on the central plateau in the beautiful valley of Atacocha. Its palaces and churches its monasteries and hospitals, its sparkling fountains and avenues were unsurpassed in any part of the new world while above all towered the snow-capped outlines of the great volcanoes known as the "Aguila" and "Fuego" ("Water" and "Fire") which were destined to be her doom. For twice Antigua was destroyed the first time in 1561 by a flood of water from the crater of the volcano which was then known only as "Aguila" and the second time in 1773 by fire and earthquake from "Fuego". The Spaniards not being able to remove the city with the recalcitrant volcanoes in the same effective manner that was employed in dealing with the Indians, other means were resorted to, and these mountains were solemnly baptized "Aguila" and "Fuego" and taken with due ceremony into the arms of the church in the hope that they would eschew their heathen deities and reform their uncouth ways. Nevertheless, as a matter of terrestrial precaution, the capital city was moved 24 miles distant to a safer location, where it is now situated. Strange to say, both Aguila and Fuego seem to have lived up to their new responsibilities, with but a few half-hearted attempts at backsliding, until the recent great quakes that in 1917-18 again shattered the fair city of Guatemala.—Andrew Horton Blackiston in the South American.

MADE THEIR WAY TO FAVOR

Words Banned Fifty Years Ago Are Now by General Consent Recognized as Proper.

Most newspapers have an index expurgatorious in which are listed all the tempting words banned at the time of its compilation as to bad usage, remarks a writer in the Home Sector. It is amusing to read one of those lists, drawn up for a New York newspaper 50 years ago, a long discarded list, frowning on such words as aspirant, bogus, collided, commenced (for begun), employee, endorse (for approval), humbug, ignore, jeopardize, lengthy, loafer, ovation, posted (for informed), predicate, progressing, reliable (for trustworthy), rowdies, taboo, talented and vicinity (for neighborhood). Most of these are now quite respectable and would have the freedom even of those newspapers which once spurned them. Thus, as ever do the heresies of today become the gospel of tomorrow. Thus does progress march.

It happens in language, in economics, in politics. Tomorrow conservatives will be found stoutly defending the program which yesterday's radicals drew up. Perhaps an appreciation of this fact ought to produce a philosophic calm, but it is quite as likely to produce temper. And yet it is absurd to swear at the conservative man as it is to denounce the dam in the stream and the brake on the engine.

Growth of Plants.

Among plants, after the period of growth in spring and summer there is a period of dormancy before the cold weather sets in, and if plants are maintained artificially at a high temperature this dormant period persists. Exposure to cold is needed to activate the plant for another period of growth. Perhaps the liberation of enzymes acts on the stored starches, converting them into sugars, or the phenomenon may be due to a change in the permeability of the cell-membrane. Though normally the stimulus required for a renewal of growth is supplied by cold, mechanical injury or a period of drying may have the same effect. The process occurs independently in any exposed part of a plant, so that if one or two branches of a plant be kept continually warm while the other is subjected to the usual winter chilling, the former will not develop on the return of summer temperature though the latter develops as usual.

BATHS CAN NOW BE
HAD IN THIS CITY**
Rheumatic Sufferers Will Hail
This News With Delight

You have heard about the wonderful virtues of Hot Sulphur Springs baths in relieving Rheumatism, Sciatica, Lumbago, Ezema, Skin Eruptions, etc. All who could afford to journey to these springs almost invariably returned sound and well again, but to get the relief afforded by the Hot Sulphur Springs, they had to go to great expense. All this trouble and expense is now unnecessary for right here in this city you can get identically the same thing—in fact, right in your own home. The waters of Hot Springs Baths are now available in your own bathtub, at trifling cost, and you get the same identical results as you would if you journeyed a great distance to the Hot Springs themselves. SULFLUID is the name of this new home treatment for Rheumatism, Sciatica, Lumbago, Ezema, Skin Eruptions, etc. It is one of the greatest chemical discoveries of modern times. It is not a patent medicine and is guaranteed positively harmless. Furthermore, if it doesn't give you the relief we claim for it, your money will be refunded. I was laid up for over a year with Rheumatism and it cost me over \$1,000 for doctors, and your SULFLUID treatment cured it for a few dollars. I can recommend SULFLUID to anyone suffering from rheumatism or rheumatic ailments. R. D. HOLT, Waterloo, Iowa."

Buyers of West Penn Railways Stock Like It So Well Many of Them Come Back for More

THE OLD ADAGE, "A pleased customer is our best advertisement" surely applies in the case of buyers of West Penn Railways Preferred Stock.

The First INVESTMENT is often followed by a second purchase of a larger number of shares.

AND IT'S SIGNIFICANT that where a man has sunk money in a quick wealth scheme that didn't pan out well, he turns to West Penn Railways and buys a block of stock.

FROM WILD SPECULATION to sound investment is a natural reaction.

Here's One Family Holding 39 Shares

ONE DAY IN MARCH A Springfield Township, Fayette County, school teacher bought one share. A month later her mother subscribed for 12. Then a brother took two shares, her mother two more, her brother-in-law 14 her sister 4 and finally her mother bought 4 more—a total of 39.

AND ALL WERE PURCHASED without a word of solicitation.

Brownsville Man Comes Back 7 Times

A WEST BROWNSVILLE resident bought one share on July 19 last. On July 31 he took another; on August 15 he bought a third; on August 20, he paid cash for 9 more. Since then he has made four more purchases for a total of 5 additional shares. He now holds 17, and every three months he gets a dividend check for \$25.50.

MANY SIMILAR CASES could be cited.

If You Invest Prior to Noon June 1 You Receive Dividends For the Previous Three Months

CHECKS FOR THE SECOND quarter of 1920 will be mailed on June 15. Buy now and share in this distribution of earnings.

ONE SHARE COSTS \$82 and earns \$6 a year, which is 6 per cent on \$100. Six shares cost \$492 and the return is \$36 a year.

MERCHANT MARINE

The establishment of an all-American policy for the development of the American Merchant Marine is provided in the new shipping bill introduced in the Senate by Senator Wesley L. Jones, chairman of the Committee on Commerce. The bill provides that coastwise shipping must be entirely American owned while 75 per cent of the capital stock of corporations engaged in foreign trade must be held by Americans. Sale of American ships to foreigners would be prohibited without the approval of the U. S. Shipping Board. The bill would also prohibit the Interstate Commerce Commission from exercising authority already existing to grant preferential rail and water freight rates on exports and imports and also passenger rates unless American owned ships are used. Where American-owned ocean transportation facilities are inadequate, the Commission would be authorized by the bill to suspend such a provision. The bill would direct the President, within ninety days from the passage of the act, to terminate treaties restricting the right of the United States, "to impose discriminating duties or tonnage dues on foreign imports or foreign vessels." The bill introduced by Senator Jones is a substitute for the House merchant marine bill. "We hope to have developed a merchant marine which will be commensurate with our wealth, our power, and our interest in the world trade," stated Senator Jones.

The Volstead law defines forbidden "intoxicating liquor" as any beverage containing one-half of one per cent of alcohol. According to Congressman Joe of Missouri, chemists have found more than one-half of one per cent of alcohol in buttermilk. If this is so, the Volstead law, strictly enforced, would rule out buttermilk and a number of other slightly fermented beverages that could not possibly be imbibed in quantities sufficient to cause a slight exhilaration, let alone what is usually understood as intoxication.

Evil Always to Be Fought.

There can be no compromise with evil. It never is right to license wrong, whatever golden returns it may offer or however difficult it may be to rid of it. In our social life and in our personal life, wherever evil shows its hand there must be battle, not compromise.—Exchange

For Dull Mirrors.

If mirrors be very dull and speckled the following method is excellent: Take a small portion of whiting and add sufficient cold tea to make a paste; rub the glass with warm tea, dry with a soft cloth; rub a little of the paste well on the mirror and polish dry with tissue paper.

Have Wrong Idea.

People are often more concerned about creating a favorable impression than about the kind of person they wish to be considered. It is like demanding a beautiful photograph without regard to the features of the original.

Although New York sends more delegates to a national convention than any other State, they always cut a sorry figure there—according to the New York World—because of the desire of the bosses "not to help nominate a President, but to bargain and barter."

Born—To Mr. and Mrs. Howard Lauderback, May 27—a son.

MINE SUPPLIES ARE SHIPPED BY RIVER

The steamer D. F. Jackson returned Wednesday from Denbo, after delivering a flat loaded with supplies for the mines and supply companies at that place. It is reported that a small packet will soon be placed on the Monongahela river, as a number to the mining companies in the upper pools feel the necessity of such a convenience. The packet will also carry a great deal of other business at many of the towns along the river.

Views of the Stars.

People in the southern hemisphere see different stars, but there are some constellations which are visible at different times of the year in both hemispheres. If the earth's axis kept always perpendicular to the plane of its orbit none of the northern constellations would ever be seen in the southern hemisphere, but as the axis inclines first one way and then the other some of both sets can be seen at different times.

Eyes of Plants.

Of course we know that trees have circulation, not of blood but of sap, that goes upward in the spring and downward in the autumn. It has been demonstrated also that plants have eyes, certain epidermal cells being really convex lenses fitted with clear sap that bends the light rays to a focus somewhere within the cells. These little lenses are able to form images just as the eyes of insects do.

Simple Journalism.

The editor of the Echo (Africa) Daily News does not have trouble over such matters as composition or the high cost of paper. When he gets a piece of news he smooths off some slabs of wood, writes up the story in his best editorial style, and then gives the slabs to his office boy, who runs off with them and hangs them in conspicuous places so that he who runs may read.

"Merry Andrew."

It was first applied to Andrew Borde physician to Henry VIII. He was very learned and very eccentric, and in order to instruct the people he used to address them at fairs and other crowded places. Those who imitated his wit and droll tricks, though not possessing his genius, were called Merry Andrews.

Dollar Day

Friday, May 28th

Laufe's Dollar Day, the banner price reducing day. What more striking proof that Laufe is backing the movement to bring prices down than the staging on a greater scale than ever before of this inimitable and original monthly sale. Laufe's Dollar Day has been startling the thrifty people of Charleroi with its money-saving offerings. Now comes another surprise in an avalanche of offerings for One Dollar.

May Campaign for New Friends and Customers

TO KNOW IS TO UNDERSTAND

The May Campaign for New Friends and New Customers was set in motion that thousands more of the people in this part of the state might really know just the kind of store that Berryman's is—and knowing—to instantly understand the value and advantages of associating with an institution

That is a civic point of pride to Charleroi,
That can be depended upon everytime,
That swerves not one jot from the truth in advertising.

That deals in the highest quality of merchandise,
That sells at one price to all,

DESIGNATE BANKS TO COLLECT COUNTY TAXES

In order to accommodate the taxpayers of the county and make it

easier for residents of outlying sections to pay their state and county taxes, Treasurer R. G. Lutto designated certain banks in populous districts to act as his agents and has sent the duplicates to them for the districts they will represent. In keeping with this plan he has des-

ignated the Charleroi Savings and Trust company to receive state and county taxes for Charleroi, North Charleroi, Twilight, Fallowfield, Spers and Dunlevy.

BRINGS SUIT AGAINST MONONGAHELA CHIROPRACTOR

A case that will attract much attention in the county when called for trial is that against J. A. Farkas, of Monongahela, charged with "practicing drugless therapy, which includes chiropractic treating by manipulation, diagnosing, etc., without a license. The charge was made by Dr. C. B. Wood of Monongahela, who it is understood is acting for the Pennsylvania Medical Society. The charges were preferred before Alderman Parkinson in Monongahela on Monday and the defendant furnished \$300 bail bond for his appearance at the August term of court

SILVER CUP FOR BEST FRESHMAN ATHLETE

The Freshman class of 1920, Charleroi High, having a surplus sum of money in the treasury at the end of the school term, purchased a silver cup with it which will be presented each year to the best Freshman athlete. This year it was presented to Earl Bruce by Prof. Watts, and his name will be engraved thereon as the first winner.

MEET NOT RECEIVED

At chapel, at the High school this morning, it was proposed to present the medals won by members of the Charleroi track team at Washington a few weeks ago, but as they had not yet arrived, it was decided to mail them to each of the winners upon their receipt by local school officials.

SCIENTISTS MAKE NEW CASTOR OIL REALLY TASTELESS

Remarkable Process Improves Famous Old Family Remedy

Nobody ever dreamed that castor oil could be made tasteless. But the chemists of Spencer Kellogg & Sons Inc., one of the largest manufacturers of castor oil, tackled the problem and succeeded in perfecting a process by which the taste is absolutely removed. Today everybody can take castor oil easily, for Kellogg's Tasteless Castor Oil is really tasteless. Nothing is put in to disguise the taste. Strength and purity are unchanged. Curative, healing, and soothing qualities remain the same. It's the same good, old-fashioned castor oil that your doctor always prescribes, with the taste removed. Children take Kellogg's Tasteless Castor Oil easily. No bribing or coaxing. You can now get Kellogg's Tasteless Castor Oil at all good druggists. Do not accept substitutes, if you want a really tasteless castor oil. Insist on Kellogg's Tasteless Castor Oil. Two sizes, 35c and 65c. (Advt.)

Buyers of West Penn Railways Stock Like It So Well Many of Them Come Back for More

THE OLD ADAGE. "A pleased customer is our best advertisement" surely applies in the case of buyers of West Penn Railways Preferred Stock.

The First INVESTMENT is often followed by a second purchase of a larger number of shares.

AND IT'S SIGNIFICANT that where a man has sunk money in a quick wealth scheme that didn't pan out well, he turns to West Penn Railways and buys a block of stock.

FROM WILD SPECULATION to sound investment is a natural reaction.

Here's One Family Holding 39 Shares

ONE DAY IN MARCH A Springfield Township, Fayette County, school teacher bought one share. A month later her mother subscribed for 12. Then a brother took two shares, her mother two more, her brother-in-law 14 her sister 4 and finally her mother bought 4 more—a total of 39.

AND ALL WERE PURCHASED without a word of solicitation.

Brownsville Man Comes Back 7 Times

A WEST BROWNVILLE resident bought one share on July 19 last. On July 31 he took another; on August 15 he bought a third; on August 20, he paid cash for 9 more. Since then he has made four more purchases for a total of 5 additional shares. He now holds 17, and every three months he gets a dividend check for \$25.50.

MANY SIMILAR CASES could be cited.

If You Invest Prior to Noon June 1 You Receive Dividends For the Previous Three Months

CHECKS FOR THE SECOND quarter of 1920 will be mailed on June 15. Buy now and share in this distribution of earnings.

ONE SHARE COSTS \$82 and earns \$6 a year, which is 6 per cent on \$100. Six shares cost \$492 and the return is \$36 a year.

YOU CAN BUY THIS high grade security on deferred payments, \$5 down and \$5 a month.

Read extract taken from files of Daily Republican, Monongahela, Feb. 20, 1894.

"In commenting on this production it will be a matter of local interest to publish the following, which is taken from the files of the DAILY REPUBLICAN of the date of Tuesday, February 20, 1894, which refers to the strike of oil at Finleyville a day or so before that time. The article is as follows:

"Four Monongahela business men, all of whom are interested in oil and gas development drove to the Finleyville oil field on Monday. The report that West Frye No. 1, situated about 150 feet across the road from Morrison's Brewery putting out considerable oil. It is 1950 feet down and the drill struck grease in the Gantz sand. The well flowed "by heads" or is intermittent in its flow. Within fifteen minutes the well made three "flows" one was of 20 seconds duration, the next 1 1-2 minutes, the third 45 seconds. In the three times it put out between ten and fifteen barrels. The well makes these flows about one every hour. It is the opinion of the experts that the hole is good as pumper from 100 to 150 barrels per day. A tank is being built with 250 barrels capacity and the "oil saver" was put on about six o'clock Monday evening, when the fluid was turned into the tank and thus was begun the Finleyville oil field, and what shall the Harvest be?

Mr. McCue of the South West Pipe Line, returned from Finleyville on Sunday. He states that from all appearances a fair well has been struck, but it is probably not good for more than 200 barrels per day. The oil

produced, he says, is of a very unusual color, resembling green paint more than anything else. At present the oil is flowing down a small run. Although drilled by the Carnegie Gas Company, it is understood that the new producer is owned by Dr. F. M. Finley and C. F. Thompson. The gas company referred to frequently develops territory leased by other persons, with the agreement that if oil is obtained the product goes to the person holding the lease, while if the well is a gasser, it becomes the property of the Carnegie Company. This it is said is the situation in this case.

Special to the DAILY:—

Finleyville, Pa., Feb. 22, 1894.

The Frye well is doing 300 barrels per day.

The Frye well, which is mentioned above is still producing but its flow was materially checked years ago when it was "shot" in an attempt to secure gas, thus plugging up the hole to a great extent. At present the well is producing about 150 barrels per month.

This well is on our lease and producing now.

Now is your opportunity do not let it get away from you, it may not come again.

Miner Killed at Daisytown In Revolver Duel with Officer

A drunken carousal late Sunday night at Daisytown resulted in the death of one man and the wounding of another. The man killed was John Kaytown, aged 36, a Hungarian, and the wounded is Officer E. W. Miller, the latter now being in the Southside hospital, Pittsburgh. His condition is not considered serious. Kaytown had been placed under arrest by Officer Miller, but at the insistence of Kaytown's wife, the prisoner was released providing he would go home and go to bed. Walking a short distance away Kaytown suddenly pulled a revolver and began shooting at Miller. Miller returned the fire. Two shots were exchanged, when a bullet from Kaytown's revolver struck Miller between the fifth and sixth ribs on the right side. After being wound-

FINLEYVILLE BANK OPEN THIS MORNING AS USUAL FOR BUSINESS

NO FURTHER MOVE BY STEAMBOAT MEN

Apparently no further move has been made by the "longshoremen's union with reference to an advance in wages. It is asserted that the recent flurry was a species of propaganda which originated among some outsiders, who attempted to have the business tied up in order to further their other interests. Steamboat owners announced their intention to operate steamboats in the local trade and would have made a most determined fight against any interruption of traffic between the mines and the mills on the river route.

Amount Secured Much Smaller Than First Stated Monday

NO TRACE OF BANDITS FOUND

The Finleyville bank robbery was the general topic of conversation Monday afternoon in Charleroi. Within an hour after the robbery had taken place the news had been flashed to all parts of the county and efforts were being made to run down the bandits.

The loss of the bank, given out Monday afternoon, varied in amounts some placing it as high as \$165,000 in cash and securities. Two bank examiners who made an inspection of the vaults of the bank Monday evening posted a notice later on the bank building stating that the loss would not exceed \$15,000, and that not a single Liberty Loan bond of a customer had been taken, and that the bank would open for business as usual this morning. The bank carried burglar insurance, and all losses will be made good by the insurance companies. It was estimated by Mr. Boyer, cashier, that the robbers got away with about \$20,000 in securities as well as cash, but these will be of no use to the thieves.

It is the general opinion that the robbery was the result of a systematic scheme on the part of the bandits, and that all details had been carefully planned. They appeared at a time when there was but one employee in the bank, and when few people were on the streets of the village. It was nothing unusual for an automobile to draw up before the bank, as the institution makes up a number of payrolls. Only a glimpse of the robbers was secured by outsiders, but they all appeared to be Americans. It is said they were not masked, but that they walked in and out of the building as if they had legitimate business there. It is the opinion of officers that some trace of the bandits will be found in Allegheny county and likely in Pittsburgh. A thorough search for the thieves is being made.

DEATH OF FORMER CHARLEROI BOY

Albert J., son of George Jand Hennetta Hill Vetter, died Sunday, May 23 at 8:30 p. m., aged 21 years at the home of his parents, 6729 Greenwood street, East End, Pittsburgh. Funeral services will be held Wednesday afternoon at 2 o'clock from the family home. The Vetter family formerly resided in Charleroi, Mr. Vetter conducting a tailor shop in the room on McKean avenue formerly occupied by the Mallabone pool room.

Thos. R. Eagye and E. N. Duty upon petition, have been appointed auditors of the school district of Charleroi.

TO RETURN PART OF LICENSE FEE

In the matter of the petition of Davidson & Klein, former owners and proprietors of the Marianna hotel, Marianna, for the return to them of a proportionate part of the fee they paid for a license to sell liquors, the court has handed down a decree authorizing the repayment of a certain proportion of this license fee.

The petitioners, who had been granted a license to sell liquors for the year beginning May 1, 1919, set forth that from July 1 of that year, due to the wartime prohibition measure, they were not permitted to exercise the rights of this license. They therefore desired to surrender the license and have the fee returned to them for the time the license was not effective.

The court does not grant a return for the full time from July 1, 1919 to May 1, 1920, but is of the opinion that the date from which the refund should be paid should be calculated from the date of the filing of the petition for the surrender of the license, to wit, January 26, 1920, and not July 1, 1919. The time for the refund is allowed is therefore 95 days. The amount to be repaid is \$50.04, which is to be paid back in the following proportions by those who received their share of the license fee: Washington county, \$7.83, state \$12.60, and Marianna borough \$23.61.

NON-SUIT TAKEN IN DAMAGE SUIT

The first case called for trial when the May term of common pleas court was convened before Judge James I. Brownson at Washington, Monday afternoon was that of James Digrazia against R. L. Culbertson, justice of the peace of Lock Four.

A non-suit was granted after the case had progressed a short time. It was a suit to recover damages for alleged illegal fees taken from the plaintiff by the defendant in a charge of receiving stolen goods which was brought against the plaintiff. It was alleged that, on December 28, 1916, the defendant under color of his office charged and took the sum of \$9.45, which it is claimed were fees for services other than those expressly provided in the act of assembly. The plaintiff failed to make good his charges, which resulted in a non-suit being taken. Squire Culbertson is well known in Lock Four, is a veteran of the civil war, having served in Co. D, 79th Pennsylvania volunteers. He enlisted in Monongahela under Capt. McBride, and was in many important engagements during his term of enlistment.

CLUB HOUSE READY SEPTEMBER FIRST

It was stated last week that owing to delays in arrival of materials the clubhouse of the Monongahela Valley Country Club will not be open to members before the first of next September. However, the golf links will be ready for play on July 1. Rollers were put to work on the links Thursday last and the grounds are rapidly being placed in condition. While it is regretted that the opening of the club house must be delayed, the members expect to be able to get some real sport on the links. The grounds will be among the finest in this part of the state.

RIG FOUNDATION FOR HOIST IS COMPLETED

The big concrete pier on which the coal hoist will rest at the Pittsburgh Steel company dock now building in front of the blast furnaces at Monessen has been completed. However, there is quite a lot of additional foundation work to be done at the plant before work on the superstructure can begin. It will be late in the summer before the undertaking is completed.
